

Safe Passage

Water Safety Adventure Activity Sheet

In an old, marooned boat you find a strange compass. The needle spins wildly ... and then --

In the wink of an eye the compass zaps you to a beautiful but deserted beach.

Oh, Cool! You're taking the same route Holly and I took to our Safe Passage!

... but if this is the same beach, then where is ...

Dudes!

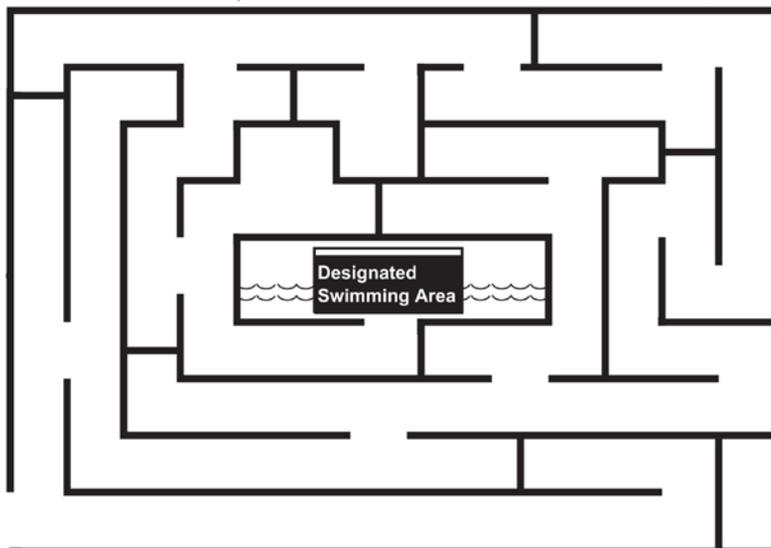

Greetings, friend of Jason and Holly, I am Topher! Do you know the rules where water meets sand?

RUNABOUT	YACHT	PERSONAL WATERCRAFT	

WHICH ONES FLOAT?

Pick something you could toss to someone in trouble in the water:

1. REACH: Hold on to the dock or your boat and reach your hand, a boat oar, a fishing pole, or whatever you have nearby to the person in the water.
2. THROW: If you can't reach far enough, toss things that float for the person to grab.
3. ROW: If you're in a boat, use the oars to move the boat closer to the person in the water, or call out to a nearby boat for help. Don't use the boat motor close to a person in the water, the propeller could injure them.
4. DON'T GO: Don't go into the water. Yell or go for help.
